## FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

"Pape's Diapepsin" relieves stomach distress in five minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and control of the story and cructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the little papers. what became of the indigestion and

Millions of men and women to-day know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened and they eat their favorite foods without

fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents pepsin, which costs only fifty cents for a large case at drug stores, It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really

organized for the campaign, report \$42,-000.

With comparatively few places as yet heard from, Virginia's total at the close yesterday was \$468,592.

The State Normal School of Fredericksburg has raised \$1,300. The Victory Girls of the school, to carry out the Victory Girl obligation of carning their contributions, put in fifteen tons of coal, shucked corn for farmers in the county and stood at toll gates soliciting belp from tourists.

Headquarters of the Y. M. C. A. National War Work Council in New York has received a call from the Paris headquarters for a large force of secretaries to be sent overseas at once for welfare work among the soldiers. Every effort is being made by the seven agencies engaged in the war work campaign to augment their personnel and equipment. The coming of peace and the long period of demobilization that must follow make the needs of these seven agencies more pressing than eye before and accentuate the value of their activities.
